From us
to you

Dear creative optimists,

If you're reading this, you probably share our vision of creativity.

Creativity that, to exist fully, must always be in motion.

Creativity that is a dance guided by agility, adaptation and dynamism. It thumbs its nose at automatically closed doors, at ideas that are cancelled before they even exist, at the *'it's not possible'*, the *'we can't do it'*, the *'it's ruined'*, the *'yes but'*.

Creativity that always seeks and finds a solution, that knows that sometimes inspiration and innovation come from the unexpected.

Creativity that rhymes with the culture of challenge, that willingly ventures outside its comfort zone because it knows that this is how we invent, reinvent and reinvent ourselves.

Built on expertise, precision and technique, not forgetting daring and a touch of madness required for each idea, it's this creativity that allows *'create'* and *'dream'* to be conjugated in the present and future tenses.

Creativity also knows that when you conjugate a verb in the plural, you will always go further. It offers the freedom to believe in your ideas, to bring them to life in their best possible form. We support all your ideas (*even if sometimes a little crazy*).

We support those who believe in the possible.

We support those who do their utmost to make it possible.

We support the freedom to imagine.

With daring and optimism,

PCB Création

CUSTOMIZE YOUR MACAROONS!

Make your macaroons unique, thanks to this original concept developed by Thierry Atlan, Meilleur Ouvrier de France Chocolatier (Best Chocolatier in France) based in New York.

It's very simple:

We personalise the blister packs with your logo or the message of your choice.
Then all you have to do is pour your chocolate into the blister and place your macaroon shell on top...
(For easier use, the blisters are designed to be suitable for one-shot filling)

Your macaroons will then be covered in a delicate layer of personalised chocolate.

Contact-us
to customize your
blister for macaroons.

FOR A REAL EYE CATCHER:
CUSTOMIZE THEM WITH YOUR LOGO,
YOUR FAVOURITE PATTERNS,
OR WHY NOT TRY PRINTING SOME
SWEET THINGS.

PCB has developed a unique concept to easily make filled candies.
Place the first half-shell blister sheet in the magnetic mould.
The second blister sheet is placed in the other half of the mould.
Pipe the filling of your choice into the half shells, remove the protective
edge cover around the halfshell (no waste/no mess). Then simply close
both sides of the magnetic mould together and leave to cool for 4 hours.
This will give you wonderful decorated filled candies.

POMPONS & POMPONETTES

CAUTION THESE PRODUCTS MUST BE FILLED AND FROZEN IN ORDER TO BE USED.

Pompons and Pomponettes are the fruit of a technique invented and perfected by PCB: the extra-thin shells can be filled with a wide variety of mixtures then frozen. Then just turn out as needed.

These shells will sate any sweet or savoury craving.

The Pompons can be filled with mousse or cake (like traditional entremets), ice-cream, coulis, cream cheese... Just freeze to create wonderful individual entremets that are already finely glazed and decorated. The thin shell is easily broken with a dessert spoon, making them so easy to enjoy.

TART SHELLS

We are proud to represent real "Made in France" quality. That's why we would like to propose this range of tart shells. We have chosen to work with French partners and quality local products in order to better control traceability, limit the impact on the environment and above all stay in line with artisan craftsmanship. We want to highlight the purity of our carefully selected French ingredients (butter, flour, free range eggs..), and have removed all artificial flavourings and colourings that might interfere with the taste of your toppings.

SILICONE MOULDS

PCB Création now has a specialised workshop to create your silicone moulds:

We create and shape unique silicone moulds for you in our new specialised design office where our expert team use state-of-the-art equipment. A new service developed with one goal: to make the unique accessible to you. No minimum order (from a mould to several thousand), affordable equipment costs, different processes available, adapted to your requests, and short production times (2 weeks to create your prototype and 4 to 5 additional weeks to manufacture your mould or moulds).

PCB Création silicone moulds are made in our factory in Alsace, using premium silicone, produced in Europe, with remarkable mechanical properties. It resists temperatures from -40°C to +220°C, and even more in some cases.

Our team takes all your requirements into account to provide you with a tailor-made solution perfectly adapted to your needs (moulds for logs, desserts - individual or for sharing - or even moulds for chocolate, plaques, stamps, etc.).

KING'S CAKE STENCILS

Create original King's cakes with our new stencils!

To use them, simply place your dough on the stencil and put it in the oven!
As soon as it comes out of the oven, turn it over, remove the stencil and cover with a thin layer of caramel powder.
Put it back in the oven briefly to get a beautiful golden glaze that will really make your pattern stand out: Now, it's ready!

You can, of course, customize your stencils as you wish - just contact us for more information!

We use premium silicone made in France, suitable for contact with food.

INDIVIDUAL ENTREMETS MOULDS

Reusable and freezable,

these moulds allow you to remove your desserts with ease.

We have in fact designed a "support jamb" around most of our reusable moulds which you can pour hot water into in order to remove your desserts more easily.

As such, your desserts will be easy to remove from the mould.

Our range includes individual moulds, dessert moulds and yule log moulds.

In search of exclusivity?

Our team is at your service to offer you a customised solution that best matches your needs.

Do not hesitate to contact us to discuss your customised projects.

In order to obtain an even more fabulous result, we have created a compound: "Sublimasse" which once hydrated, will be applied over the baking sheet prior to your biscuit. This product prevents the appearance of air bubbles on the surface of your biscuit and also allows your biscuit to be more airy.

***The declaration statement, quantity limits and possible uses depend on the regulations in force in the country of marketing and/or export and sometimes have no direct link with the natural qualities of the material in question. It is therefore very important to double check these aspects when creating your recipe.

Some colorants may be subject to dosage limitations or bans depending on the final application (EU Regulations 1129/2011, 380/2012, and 1333/2008). Therefore, it is the responsibility of the user to ensure that the use of the colorant complies with the applicable regulations. 100% FRUIT/VEGETAL COCOA BUTTER

We've created a range of fruity cocoa butters especially for you, made from cocoa butter and freeze-dried fruit/plant powders, 100% natural, without colourings; to make a velvet effect using a spray gun or just as they are to naturally add colour to all your creations. Used in velvet on your entremets, these cocoa butters richer in fruit and fiber than a classic cocoa butter (up to 30%) are therefore less brittle, and bring more elasticity for creations with perfect visual and holding. They also bring a touch of fruity taste, a real plus to a classic cocoa butter.

VELVET SPRAYS

These sprays make it possible to give a **velvet effect** on your frozen desserts or entremets:
We developed an exclusive new formula: no need to be put in drying oven, our new sprays can be **used at ambient temperature**.
 Let your creativity run wild: underline the "relief" of your dessert, draw using a stencil key set... **You are an artist!**

METHOD OF USE:

Keep the product at room temperature (20-25°C/ 68-77°F) for at least 2 hours before use. Shake well before use.
 Spray an even layer of product on a cold surface from a distance of 20-25 cm.
 After use, turn the spray can upside down and spray for a few seconds to clean the dispenser. Store at room temperature*

*If the product has been stored at a temperature <20°C/ 68°F, place in a bain-marie or oven (35°C/95°F) for around 20 minutes to liquefy the product before use.

THE TWO PRODUCTS BELOW CAN BE USED FOR GLAZING, FINISHING AND PROTECTING CHOCOLATE COATED SUGAR CONFECTIONERY.

070268 is a glazing solution based on gum arabic which is used to gloss the sugar-coated confectionery and should be applied first. 061076 is a shellac based glazing solution that provides a protective layer against moisture and air and should be applied last.

- The surface of the chocolate coated centers must be completely solidified before applying the finishing solutions

- The air blower for drying the dragees following application of the finishing solutions must comply with the following characteristics

- maximum 45-50% relative humidity
- 10-12°C for white chocolate, 12-14°C for milk chocolate and 16-18°C for dark chocolate

061076

Varnish pearly for chocolate moulding - 200 g
N/A: China, Japan, UAE, Saudi Arabia, Qatar, Kuwait, Bahrain, Oman

070268

Coating solution made of gum arabic - 1 Kg
This product must be shaken sufficiently before use because it tends to phase out.
N/A: UAE, Saudi Arabia, Qatar, Kuwait, Bahrain, Oman

A TYPICAL EXAMPLE WITH CHOCOLATE COVERED HAZELNUTS:

	PRODUCT USED	QUANTITY (mL/100Kg)	MIXING WITHOUT AIR BLOWER	DRYING WITH AIR BLOWER
1ST LAYER	070268	250 mL	1-2 min	7-10 min
2ND LAYER		150 mL		
3RD LAYER		100 mL		
LAST LAYER	061076	130-170 mL		5 min

These solutions can be applied simply by pouring the recommended amount using a measuring cup or syringe. When using a spray system, it is vital to use two separate systems for the two products as these solutions are not compatible. After these different layers have been applied, the dragees must be set aside for at least 2 hours to finalise the drying process before packing. We recommend storing them in an environment with the same atmospheric conditions as those used for glazing.

DÉCOR À MODELER

Discover our modelling décor recipe! Its new, more malleable texture allows for easy modelling, and its newly refined ingredients bring out its great white chocolate flavour. Mouldable like marzipan, you can cover your desserts and create fabulous hand-made decorations or use a pastry cutter. BLISTERS TO FILL

The references below refer to blisters.
All you have to do is add your own chocolate to the different moulds and voila!
You get magnificent decorations. Using these blisters couldn't be easier.

Before using: Your room and your work surface must be tempered to +22°C, to optimize the removal and demoulding of your decorations.
Printed blisters: Fill the blisters with your chocolate (be careful to keep the temperature of the chocolate at its optimum level throughout the filling process). Lightly vibrate/shake the blister pack for 15 to 20 seconds. Then land the chocolate slightly crystallise (1 minute) without moving the blister- pack. Refrigerate at 4°C for 30 minutes to 2 hours depending on the size and volume of the products. Unmould by pushing gently from underneath

Neutral blisters: Fill the blisters with your chocolate. Lightly vibrate/shake the blister pack to drive out air bubbles. Refrigerate at 4°C for 30 minutes to 1 hour depending on the size of the chocolate pieces. Unmould. Neutral blisters are reusable: you can clean them with cotton wipes. Please note that the gloss effect will decrease gradually with use.
